

## **Scheduling Coordinator (SC) Certification and Maintenance Transferring Resource(s) between SCIDs (Same SC)**

To submit documentation, please review <http://www.aiso.com/Documents/How-to-Submit-Documents-for-Applications-and-Ongoing-Obligations.pdf>

Letter templates must be printed on applicable SC or Resource Owner company letterhead, signed, scan as a pdf.

Resource transfers – Effective date at least 11 business days from submission date.

Review the master file full network model dates to verify effective dates do not fall in the week where changes cannot be made:

<http://www.aiso.com/market/Pages/NetworkandResourceModelig/Default.aspx>

If your effective date falls during a 'blackout time' you will need to resubmit.

Folsom, CA 95630

Dear

As Scheduling Coordinator for the resource(s) listed below, this notification is to inform the California Independent System Operator (CAISO) that we are transferring a resource from SCID \_\_\_\_\_ to a new SCID: \_\_\_\_\_

Please note that both of these SCIDs are registered to the same SC (us). Also, we have indicated other programs this resource(s) is currently participating in by checking the respective boxes below:

**Resource Owner:**

Resource ID	WEIM Participant Resource Note 1	WEIM Non-Participant Resource Note 1	Hybrid / Co-located Resource	Resource Adequacy	Multi-Stage Generator	Use Limited Plan	Station Power Resource*	RMR Resource
-------------	-------------------------------------	---	------------------------------	-------------------	-----------------------	------------------	-------------------------	--------------

\*Resources participating in the Station Power Program must begin on 1st of the month, no transfers mid-month. Allow at least 30 days for station power set up process. Contact [StationPower@caiso.com](mailto:StationPower@caiso.com)

**\*Note 1** WEIM Entity:

**New Schedule Coordinator information:**

**Starting Date:**

Effective Trade Date at least 11 business days after letter submittal

**New SC Name:**

**SCID:**

I acknowledge that the 20-minute implicit ramp factor is added to the generation schedules submitted by my company as the responsible SC, and this ramp factor is used in the settlement of Instructed and Uninstructed energy. During the transition of the above listed Generation Resource(s) from one SC to another, the CAISO software utilizes a schedule of zero where it does not have a schedule submitted by the SC for the transferred resource(s) and hour adjacent to the transfer. Therefore, the resulting Positive and Negative ramping energy nets to zero over the transition from one SC to the other. However, depending upon the interval INC and DEC price differentials and each SC's net regional Uninstructed Energy quantity, the net settlement effect may not be completely offset. I am aware of this potential Settlement implication and will make any financial arrangements I deem necessary directly with the contracted Generator Owner.

This letter certifies that the information is true and accurate for the above referenced resources. Please inform me if you have any questions.
