Re: Informational Filing of Amendments and Revisions to Demand Relief Agreements, Docket No. ER02-____ - ____

Dear Secretary Boergers:

The California Independent System Operator Corporation ("ISO") hereby submits for filing, for informational purposes only, amendments and revisions to a number of Demand Relief Agreements, as described below.¹

The ISO notes that, on September 12, 2001, the ISO submitted for Commission review the ISO's Summer 2001 Demand Relief Program, in Docket No. ER01-3047-000. The ISO also submitted, for informational purposes, various Summer 2001 Demand Relief Agreements and revisions to some of those agreements. Filings by various intervenors were subsequently submitted in response to the September 12 filing, and the ISO submitted an answer to these filings on October 18. As of today, the Commission has not issued an order concerning the September 12 filing.

Executed copies of amendments to the Demand Relief Agreements between the ISO and the following entities are attached as follows:

¹ In *California Independent System Operator Corporation*, 91 FERC ¶ 61,256, at 61,898 (2000), the Commission stated that it would not require that the ISO's *pro forma* Demand Relief Agreement be filed under Section 205 of the Federal Power Act, 16 U.S.C. § 824d (1994). Moreover, in *California Independent System Operator Corporation*, 95 FERC ¶ 61,037, at 61,103 (2001), the Commission did not state that it would require the ISO to file for Commission approval any Demand Relief Agreement entered into to permit participation in a Demand reduction program similar to the Summer 2000 Demand Relief Program.
